SUMMARY

Self-taught MERN developer and BBA student who has built and deployed two full-stack applications with React, Node.js, Express, and MongoDB. Hands-on experience with JWT authentication, REST APIs, database integration, and responsive web development. Currently seeking a Full-Stack, Frontend, or Backend Developer internship.

EDUCATION

Maa Shakumbhari University (MSU), Saharanpur

Bachelor of Business Administration (BBA) | Aug 2025 – Apr 2028

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python
Frontend: HTML, CSS, React.js, React Router, Context API
Backend: Node.js, Express.js, REST APIs, JWT, bcrypt
Database: MongoDB, Mongoose
Tools: Git, GitHub, Postman, Render, Netlify

PROJECTS

Productivity Dashboard V2 | Live Demo

MERN Stack | React.js, Node.js, Express.js, MongoDB
• Built a full-stack productivity dashboard with React.js, Node.js, Express.js, MongoDB, and Mongoose, implementing authentication, task management, and a responsive dashboard.
• Implemented JWT-based authentication with bcrypt password hashing, protected routes, and server-side ownership checks for user-specific task access.
• Built a React dashboard with Context API, client-side search/filtering, statistics, mission progress, calendar features, theme persistence, and loading states for API requests.
GitHub: github.com/aadi-devx97/productivity-dashboard

Notes App | Live Demo

HTML, CSS, JavaScript | Node.js, Express.js, MongoDB
• Built a full-stack notes application using HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, and Mongoose, with authenticated note management.
• Implemented JWT-based authentication with bcrypt password hashing and protected backend routes for user-specific notes.
• Deployed the application with separate frontend and backend services, using MongoDB Atlas for persistent data storage.
